Seminar on Biostatistics
Recent advances in statistical methods for clinical trials and meta-analysis

Date **13th October 2023 (Friday)**

location **Large Conference Room, Icho-Kaikan (3rd floor), Suita Campus, OU   Address: 2-2 Yamadaoka, Suita**

大阪大学（吹田キャンパス） 銀杏会館 3階 大会議室

Session1: Clinical trial   13:00-15:00

Hisato Sunami (Kyowa Kirin Co., Ltd.):
Semiparametric piecewise accelerated failure time model for immuno-oncology clinical trials

Tomoyuki Sugimoto (Shiga U):
On confidence intervals constructed under group-sequential design for two binary/continuous co-primary endpoints

Tim Friede (Goettingen U):
From clinical trial simulations to in-silico trials

Session2: Meta-analysis   15:30-17:30

Keisuke Hanada (Kyowa Kirin Co., Ltd.):
Inference using an exact distribution of test-statistic for random-effects meta-analysis

Taojun Hu (Osaka U, Peking U):
Sensitivity analysis for publication bias in meta-analysis based on exact likelihood of sparse event outcome

Satoshi Hattori (Osaka U):
Meta-analysis of adverse events accounting for heterogeneous follow-up periods in oncology clinical trials

会場参加申込方法：10月12日（木）までに下記【問い合わせ先】メールアドレス宛にご連絡ください。
