

2024. Nov.28 THU 18:00-19:40 JST**(9:00-10:40 GMT)****Ethical, Legal and Social Implication (ELSI) Projects
of In Vitro Gametogenesis (IVG)**

In vitro gametogenesis (IVG), recreating of germ cell development in vitro, is a new stem cell-based technology with significant potential for promoting reproductive science. Although researchers are aiming for clinical application in the future, there is limited understanding of stakeholders' perspectives that might be affected by implementation of IVG. In this webinar, we will introduce two projects addressing ELSI issues of IVG in the UK and Japan.

18:00-18:05 **Introductory remarks:** Kazuto Kato (Osaka University, Japan)**18:05-18:30** **The Future of Human Reproduction Project**

Stephen Wilkinson (Lancaster University, UK)

Laura O'Donovan (University of Sheffield, UK)

Nicola Williams (Lancaster University, UK)

**18:30-18:45** **G-STEP (Gametogenesis from Stem cells and ELSI/Governance by Patient and public involvement) Project**

Kazuto Kato (Osaka University, Japan)

**18:45-18:55** **Public Involvement Panel of the G-STEP project**

Atsushi Kogetsu and Daisuke Yamashita

(Osaka University, Japan)

**18:55-19:40** **Q&A and Discussion****Language : English, Registration required**

当セミナーは大学院生の単位認定セミナーです
