

The 2nd International Symposium on Integrated PET-MRI

January 28–29, 2011

**Senri Life Science Center
in Toyonaka, Osaka, Japan**

*Integrated PET-MRI system is an innovative imaging
modality for clinical diagnosis and experiments.*

*This conference provides recent advances of PET-MRI
and potential difficulties to be overcome.*

Background technology of PET-MRI is also discussed.

WPI Osaka University
iFReC

Organizers: Jun Hatazawa, MD, PhD and Eku Shimosegawa, MD, PhD
Department of Nuclear Medicine and Tracer Kinetics,
PET Molecular Imaging Center,
Osaka University Graduate School of Medicine
Immunology Frontier Research Center, Osaka University
